PAPER MILLS & NEWS PRINT Tapes

SUNSUI-801

DOUBLE SIDED REPULPABLE TISSUE TAPE

Double sided repulpable splicing tape for splicing paper webs in the paper production and printing industries.

- For flying splices at high speed on off-line coaters and on heatset web offset presses.
- For any kind of paper from light to heavy weight.
- Suggested for paper grades manufactured by neutral papermaking process.
- Suitable for automatic core splicing.
- Idea for flying splice on fast running machines

SUNSUI-257

DOUBLE SIDED REPULPABLE TISSUE TAPE

P-257 is a repulpable light blue colored tape with tissue paper carrier. Coated on both side with synthetic resins, water soluble adhesive.

- Suitable for very HIGH SPEED FLYING SPLICES application on offline coating plants.
- Recommended for News Paper and paper processing industries for splicing application on medium and heavy weight papers.
- Easy & fast tearing of the excess paper in the splice areas
- Reliable automatic splices at a high speed
- Splices don't slip even under high web tensions
- Best performance in any stage of the splicing process

SUNSUI-367

DOUBLE SIDED REPULPABLE SPLICING TAPE FOR SPLICING PAPER Webs In The Paper Production And Printing Industries.

MAIN APPLICATION AND TIPS FOR CORRECT USAGE
Permanent and temporary overlap manual splices of light and medium weight, uncoated and coated papers, on winders and sheeters.

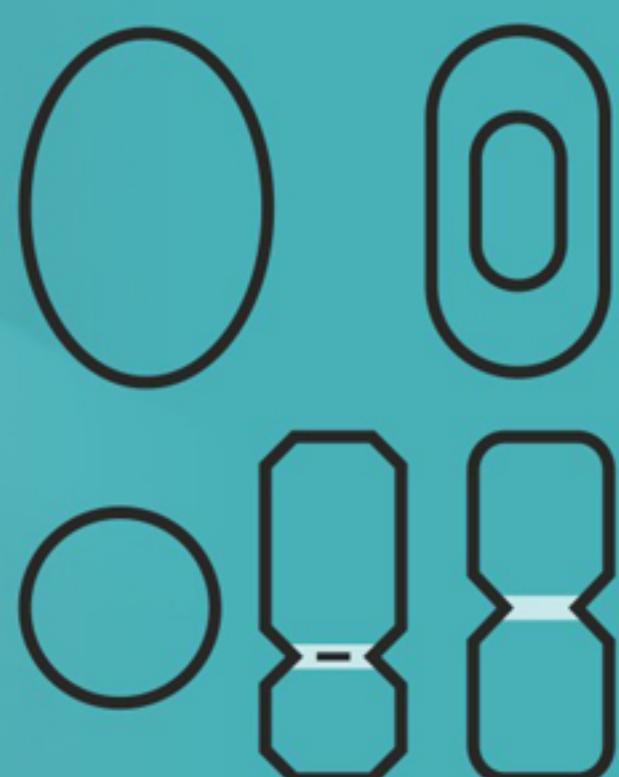

- No contamination.
- High Temperature resistance.
- No bleeding
- Stiff and easy peel
- Dust and humidity proof

SUNSUI BUTTERFLIES

SUNSUI BUTTERFLIES are single sided repulpable light blue label/die-cuts of butterfly shape made of a printable white kraft paper carrier, coated with synthetic resin, water soluble adhesive and protected by silicone coated paper liner in white colour.

- Particularly suitable to secure the top layer of medium/heavy paper reels during run-up to splicing tape at offline coaters and super calendars.
- The shape of this tape is specifically recommended to secure the top layer of paper with the "TUB" profile.
- Tailor made application which is very easy to handle.
- The high bonding strength of this paper tab prevents flapping during paper web flying splices in offline coater.

SUNSUI P-639

DOUBLE SIDED TISSUE TAPE

P-639 is a general purpose double side tape is coated with strong adhesive on both sides. It bonds firmly on to papers, leathers, clothes, woods, plastics any two similar of dissimilar materials.

APPLICATION

- Mounting nameplates on machines, electrical apparatus etc.
- Temporary holding rivets, bolts, leather pieces in position before stitching.
- Splicing paper, plastic films, cloths and corrugated boards.
- Reinforcing seams or edges of handbags, wallets or belts during sewing operation.

SUNSUI P-635

DOUBLE SIDED TISSUE TAPE

P-635 is a special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics any two similar of dissimilar materials.

- Manual splicing of paper during processing in finishing house of paper industries. SUNSUI P-635 of the right solution of core starting application in paper industry.
- Reinforcing seams or edges of handbags, wallets or belts during sewing operation.

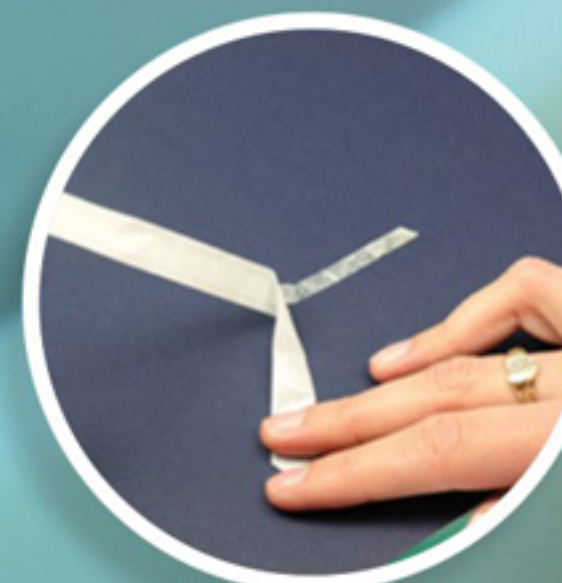

SUNSUI P-636

DOUBLE SIDED TISSUE TAPE

P-636 is a special tape which consists of non woven tissue and is coated with strong adhesive on both sides. It bonds firmly on to leathers, clothes, woods, plastics any two similar of dissimilar materials.

- Splicing papers, plastic films, cloths and corrugated boards
- Acrylic based adhesives provides strong holding power and no adhesive deterioration
- Excellent temperature and solvent resistant
- Good shear strength the adhesive strength is hardly affected with temperature change and long storage
- No slippage long after applied.

SUNSUI KP-88

PAPER BASED PACKING TAPE

KP-88 is a product which is made out of kraft paper coated which strong adhesive as the packing solution with special features of high adhesion strength, tear resistant-a next generation product for packing solution.

APPLICATION

- SUNSUI KP-88 is the right choice for the sealing light to medium weight shipping cartons made out of corrugated sheets
- Also suitable as a security seal due to it's high adhesive prover
- In the board manufacturing industry this KP-88 can be used for BUTT splicing application.
